1.3 Transformations of Linear and Absolute Value Functions

Name _____ Period ____ Date _____

Algebra II 1.3 (30-minute plan) · Exit ticket

1.

$f(x) = x - 5$. Write $g(x) = f(x) + 4$ and simplify.

2.

$f(x) = |x|$. Write g, a vertical shrink by a factor of $\frac{1}{2}$.
