1.4 Limits and Continuity of Trigonometric, Exponential, and Logarithmic Functions

Name _____ Period ___
Date _____

AP Calculus 1.4 (30-minute plan) · Exit ticket

1.

Find the limit as $x \to 0$ of $\frac{\sin(6x)}{3x}$.

2.

$1 - x^2 \le f(x) \le 1 + x^2$ near 0. Find the limit of $f(x)$ as $x \to 0$.
