4.9 Modeling with Polynomial Functions

Name _____ Period ___ Date _____

Algebra II 4.9 · Exit ticket

1.

The third differences of a data set are constant. What is the degree of the polynomial that fits the data?

2.

Write a cubic function with zeros 1, 2, and 3 and leading coefficient 1.

3.

The first differences of a data set are 5, 5, 5, 5. What kind of function fits?
