6.5 Inequalities in One Triangle

Name _____ Period ___ Date _____

Geometry 6.5 · Exit ticket

1.

In △XYZ, XY = 10, YZ = 14, and XZ = 7. List the angles from smallest to largest.

2.

Can 6, 9, and 16 be the side lengths of a triangle? Explain.

3.

A triangle has sides of length 9 and 4. Describe the possible lengths of the third side.
