6.1 Exponential Growth and Decay Functions

Name _____ Period ___ Date _____

Algebra II 6.1 · Exit ticket

1.

Evaluate $y = 5(2)^x$ for $x = 3$.

2.

Is $y = 10(0.75)^x$ growth or decay? What is the percent rate of change?

3.

You deposit $1,000 at 3% annual interest compounded yearly. Find the balance after 4 years.
