5.2 Congruent Polygons

Name _____ Period ___ Date _____

Geometry 5.2 · Exit ticket

1.

△GHI ≅ △PQR. Which angle corresponds to ∠H?

2.

Two angles of one triangle measure 50° and 60°, and so do two angles of another. What are the third angles?

3.

Corresponding sides of congruent triangles measure 4x − 1 and 23. Find x.
