6.11 Approximating Integrals: Trapezoidal Sums, the Midpoint Rule, Simpson's Rule

Name _____ Period ___ Date _____

AP Calculus 6.11 · Exit ticket

1.

Approximate $\int_0^2 x\,dx$ with a trapezoidal sum, n = 2.

2.

What must be true about n in Simpson's Rule?

3.

If f is concave down, is the trapezoidal sum too big or too small?
