## 9.1 Using Normal Distributions

Name _____ Period ___ Date _____

Algebra II 9.1 · Exit ticket

**1.**

About what percent of normally distributed data are within 2 standard deviations of the mean?

**2.**

A normal distribution has $\mu = 50$ and $\sigma = 5$. Find $P(x > 55)$.

**3.**

In data that are skewed right, is the mean greater or less than the median?

✂ cut
