9.2 Populations, Samples, and Hypotheses

Name _____ Period ___ Date _____

Algebra II 9.2 · Exit ticket

1.

A sample of 50 of a school’s 800 students is surveyed. What is the population?

2.

Is the mean of a sample a parameter or a statistic?

3.

A simulation shows that a result like yours happens 40% of the time by chance. Should you reject the hypothesis?
